VAT number

Short description of the company (half page max)

Basic Information

Title of the proposal

Summary of the proposal <half page max>

Select the goal of your proposal:

Extend OpenReq

Integrate OpenReq

Others (please, explain in max 2 lines)

Domain/Industry to which your solution applies

Requested fund

Section A. Feasibility (10 points in the evaluation, max 5 pages)

Alignment with OpenReq objectives

Please, briefly describe the objectives of your proposal (as concrete as possible) and how they fit the goals of OpenReq.

Technical soundness of proposed solution and complementarity with OpenReq services

Please, provide a technical description of how your solution including complementarity of tools, data sources, and approaches with respect to the ones already covered in OpenReq. Please show the technical soundness of the proposed solution.

Milestone, Budget, and Resources

Please describe the overall process, milestones, and resources of your project.

This section must specify one control point, preferably showing a first version of the implementation. The control point will be checked by the OpenReq consortium and used as mid-payment criteria.

Please, indicate the requested budget justifying the foreseen effort to implement the proposed solution.

Please give evidence that you have the required resources to carry out your proposed solution (e.g. staff, data, computing resources, experience, etc.).

Feel free to include diagrams and graphs.

Section B. Evaluation and Feedback (5 points in the evaluation, max 2 pages)

Evaluation of the developed tools, data sources, and approaches

Please, describe how you will evaluate your solution.

Quality and quantity of evaluation data

Please, describe and estimate the type and amount of the evaluation data that you will generate. To what extent could this data be made available to the consortium or the public?

Feedback about the OpenReq existing features to the consortium

Please, describe for which OpenReq services you will provide feedback, how and how frequently feedback will be collected, and how it will be delivered.

Commitment and willingness to collaborate with the consortium partners

Please, briefly describe your previous experience in working with partners similar to the ones in the OpenReq consortium and your expectations from this collaboration.

Section C. Impact (5 points in the evaluation, max 2 pages)

Business capacity and market-readiness

Please, describe the possible business goal of your solution, including its target market and potential licensing scheme. Will your solution (or part of it) be open source?

Users' reach

Please, describe the envisioned user base of your solution, their community, and the context in which they will use it. How can these users become part of the OpenReq community?

Contribution to communication, exploitation, and dissemination actions

Please, propose actions for the dissemination of OpenReq in general and your solution in particular.
